

The Well Being Programme

Child Protection and Safeguarding Policy

All members of staff under the instruction of Matrix Combat and the Well Being Programme must adhere to the policy as follows, none are above of this policy, when they are in contact with the students.

This policy is to safe guard and promote our pupils welfare in health and safety by adopting a supportive atmosphere where appropriate.

The student's welfare always comes first .The Well Being Programme leads the charge in not only physical safety but emotional health and support through the school.

**The members of the team will follow three guide lines.
Number 1 is prevention.**

We can create and maintain an environment where children feel secure. We aim to develop the confidence within the child to speak out and assist them to improve their well being.

We are aware of students may get miss cross fed misinformation so where appropriate a trusted adult will always be notified of changes .

Our staff from The Matrix and the Well Being Programme will follow strict due diligence and always notify the school if the well being of the child is affected.

Responsibility

All member of Matrix Combat and The Well Being Programme team will carry out roles of responsibility and must always with great intentions to create a sanctuary for children.

It is important to follow up all next steps. To be mindful that children are very sensitive and are influence by the instructor decisions and orders given to them.

Instructors to always lead by example and consistently.

The head and trainer of safe guard is Jake Johnson

The Well Being Programme

Teaching and training

All members of our team will be made signed off when trained in this section. All members of team will be aware of how the school would like us to follow their guide lines and then adding ours. If a incident occurs within or outside of the The Wellbeing Programme.

Staff are trained in first aid and all next steps will take place. Such as recorded incidents to be informed to parents, school teachers and the matrix combat.

Procedures

Where it is reported or believed that a student is suffering or at risk of harm next steps are immediately carried out.

Is the child safe?

: Any concerns that are brought to light from the class teacher other children or members of the safe guarding teams, that receive any number of concerns about a student they must report them.

Incidents should never be compared .to one another as all people not only children have different levels of tolerance to others an incident is an incident if this has affected the students well being then it must be handed over to the schools safe guarding team.

Following on from effected students regarding welfare and safety of the student.

Make sure the necessary actions are followed and communicated with the head teacher.

Get the person who is best suited to follow up the disclosure.

Work with the school safe guarding team to start the formal process assess the level of concern.

Co-operation with other agencies if needed such as child service and police.

The Well Being Programme will endeavour to organically change to apply and grow a process that will encourage the students self esteem.

Create an environment that promotes positive praising and thoughts where all are welcomed and appreciated and respected.

Asses how a child behaves and learns. to exhaust any avenue that best copes with that child and feed back to families, also if needed.

Commitment

There may be many reasons why people get involved with martial arts. Is it to cure a problem or prevent one?

So to be always aware of the child's self esteem. This is important especially if the child shows or may not give the signs of abuse that effect with the well being of the student.

The training techniques we provide is through repetitive training gives which the student capabilities that equips them to stay safe from abuse mentally and physically.

The Well Being Programme will always be open to any influencer of the student and any agencies that become involved with the welfare of the student

It must also be stressed that in a home environment where there is domestic violence, drug or alcohol abuse, mental health issues, children may also be vulnerable and in need of support or protection.
