RISK ASSESSMENT

This risk assessment is specific to Coronavirus (COVID-19) and should be followed in conjunction with the current caretaking/cleaning risk assessments and Government guidance.

Note; contracted caretaking and cleaning staff should follow their employer's guidance, which should be available on all sites.

What are the hazards?	Control Measures currently in place	✓ X N/A	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
Exposure to Covid-19 from touching surfaces	Hands are washed regularly with soap and water for 20 seconds after removing Personal Protective Equipment (PPE) used while cleaning.			➤ Purchase of supplies to be in school, any supplies needed will be ordered by Caretaker and Business Manager. ➤ Cleaning and caretaking staff to be off-site while children/teachers are in school • Checklist to be provided to staff cleaning so they have a can ensure all areas are cleaned and accounted for.		
	For routine cleaning, all caretaking/cleaning staff will wear disposable gloves throughout their cleaning shift on site.					
	All gloves used in a shift are disposed of after being used and placed into sealed bag for disposal.					
	If gloves are removed during a shift, then these are disposed of as above. Hands are washed thoroughly, and new gloves put back on before carrying on with duties.					
	Cleaning is undertaken in a methodical order i.e. cleaning all common surfaces such as door handles, push plates on doors, handles of equipment that are regularly used such as zip boilers, kettles and all surfaces where people place hands such as kitchen worktops, desks, meeting tables etc. Mopping and low level cleaning would follow after this.					
	Staff do not sit in the same workstation or share workstations with other staff.					
	Employees do make their own drinks and wash up their own mugs, plates and utensils etc.					

What are the hazards?	Control Measures currently in place	✓ X N/A	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
<i>(Continued)</i> Exposure to Covid-19 from touching surfaces	Staff will liaise with the site Headteacher/Manager before; <ul style="list-style-type: none"> • internal doors that are not designated fire doors • fire doors with automatic closers • doors that do not need to be kept closed for security reasons are left open during the day when building is in operation to reduce the risk of having to touch communal door handles and push plates. 			➤		
Exposure to Coronavirus (COVID-19) for staff working in close proximity to others	Social distancing is maintained from other people and staff maximise distance between colleagues (minimum 2m). Where possible staff undertake cleaning duties in areas not occupied by other person(s). Only one person at a time uses toilet areas. Only one person at a time uses kitchenette areas.			➤ Staff should leave school when cleaning staff arrive so cleaning can be undertaken.		
Risk to employees who are classed as extremely vulnerable in close contact with someone with Coronavirus (COVID-19)	As per Government guidelines, staff will self-isolate for 3 months unless Government guidance changes.			➤ CW audit staff		
Employees with Coronavirus (COVID-19) working in close contact with others	If confirmed or suspected of having Coronavirus (COVID-19), staff will self-isolate for 7 days and others in household to self-isolate for 14 days. Derbyshire County Council advice is followed on self-isolation at Our Derbyshire website. Where employees or other workers have a suspected or confirmed case of Coronavirus (COVID-19) the Derbyshire County Council Enhanced Cleaning and Disinfecting Coronavirus (Covid-19) guidance is followed.			➤ All staff have access to a test if they display symptoms of coronavirus, and they are encouraged to get tested		

What are the hazards?	Control Measures currently in place	✓ X N/A	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
Cross contamination / infection	All employees wear the required and correct PPE, including disposable gloves and follow the Derbyshire County Council PPE requirements for staff guidance.			➤ PPE purchased – Caretaker to ensure supplies are in place and order any with Business manager well before they run out.		
	Cloths and mop heads are cleaned after completion of the task.					
	All colour coding is followed, and cloths and mop heads are not mixed up.					
	When wearing aprons, they should be removed before removing gloves and placed in a plastic bag.					
	Gloved hands are washed before removing and then put into a plastic bag, which is sealed for disposal.					
	After gloves have been removed, hands are washed thoroughly for at least 20 seconds.					
	New sets of gloves are used at the start of each shift.					
Using new chemicals/products to mitigate Coronavirus (COVID-19) Control of Substances Hazardous to Health (COSHH)	Only approved cleaning chemicals are used as per COSHH.			➤		
	A COSHH assessment is completed for any new products/chemicals.					
	Cleaning chemicals ARE NOT MIXED, and dilution rates are followed with correct techniques used e.g. number of plunges or caps needed.					
	Cleaning chemicals are kept in their original containers, labels are not removed, and lids are replaced following use.					
	Diluted chemicals can be stored in spray bottles, but the bottle will be clearly labelled giving the name of the chemical contained and its dilution rate.					
	Cleaning chemicals are not left out unattended and are securely stored.					

What are the hazards?	Control Measures currently in place	✓ X N/A	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
<p><i>(Continued)</i></p> <p>Using new chemicals/products to mitigate Coronavirus (COVID-19)</p> <p>Control of Substances Hazardous to Health (COSHH)</p>	<p>All required PPE is used when diluting chemicals as per the COSHH assessment.</p>			<p>➤</p>		
<p>Eye protection is worn if there is a risk of splashing chemicals e.g. when diluting any concentrate chemical (this will be identified in the full COSHH assessment or on the manufacturer's instructions).</p>
