

Working together to
achieve our best *to help
others* to reach *their*
God-given potential.

Our school is actively involved in worldwide charities and action. We are passionate about change and courageous advocacy.

On the following pages, there is some information about our work with four international Christian organisations.

All four of these charities are hugely enthusiastic about our involvement as a school. They can see huge benefits to the children they help in knowing that they are supported by children in the UK and they are not alone.

These charities benefit us too - they allow our pupils to learn about and have an impact on the lives of less fortunate children in different countries around the world.
